

Rose Parade Staging Street Map

Enter your staging street from First Street heading East!

Your approximate staging location will be sent to you along with your Division and Entry number via email. Due to late entries, there may be some changes to the line up, but we will try to maintain your approximate location. The Division Official will direct you to your location when you arrive.

Look for your Entry Number spray chalked on the Division street you were assigned.

Please pull next to the curb to the south side of your Division street to allow a traffic lane for other entries traveling to their staging location.
